For his part, Santiesteban Velázquez emphasized on the need to link production forms to the still inactive placitas (small markets), a peoples demand today.

He also said that the municipal delegations of Agriculture should focus on this issue, and that the Party and the Government should check the fulfillment of this orientation.

The also First Secretary of the Party in the province called the attention on the purging of the indications made by the auditors to some municipalities on the violations made in the use and exploitation of leased lands.

On the contracting of productions, the delivery of various crops to the markets, the social commitment, as well as milk and meat for the industry and the social assignment were also discussed.

The Delegate of the Provincial Directorate of Agriculture called for the exploitation of as many hectares of land as possible, such as yucca through alternatives before the lack of rain, he urged to increase the planting of short cycle crops and other vegetable as
