In the meeting held this February 17 of the temporary work group for the combat of the current pandemic of covid-19 in the province of Holguin, aspects related to the attention to the isolation centers were discussed, under the leadership of Juan Miguel Moran Martin.

The responsible of defense affairs in the Provincial Government reviewed food supply to those places, mainly to the isolation center in Playa Blanca, which accommodates the health personnel who have worked in the red zone of the hospitals.

Attention was also drawn to other isolation centers located in the capital city and the center for homeless people.

The supply of hypochlorite for the warehouses and chlorine for hospital centers or those in need of this product, as well as other supplies for health personnel, have also been insisted upon.

Before the eventual opening of an event in the neighborhood Emilio Bárcenas in the city of Holguín, Moran Martin oriented to study the number of employees from different entities that could be linked to it, so that precautions are taken and to avoid affectations at work.

It is known that in view of the temporary closure of some services, more than 3,700 self-employed workers have taken the tax break, as well as thousands of others who are teleworking.
