---

The Conceptualization of the Model, the National Plan for Economic and Social Development until 2030 and the Guidelines approved in the VI and VII Congress of the PCC, have led to the management approach of our development from the local, reach priority in the midst of national strategies.

The current context drives the development of municipalities according to their strategies and their agreement with the province and the country, to strengthen them as a fundamental instance, with the necessary autonomy to achieve sustainability in this scenario.
